SIR,

I have the honor to state that a 10 H.P. Oil Engine was purchased for the Shimoga Workshop in May 1929 in place of the 3 H.P. engine installed there in orderto enable the Workshop to take up additional work. It was contemplated at the time that an additional lathe should also be purchased. This could not be done last year as no funds were available for the purpose. A provision of Rs.1500/- was specially made in the budget of the current year under "28. I&C, Minor Industries Capital Account" to enable a lathe being bought and installed at the Shimoga Workshop. Quotations for a suitable lathe were obtained from different firms. When I was last at Shimoga on the 16th instant, I discussed the subject with the Superintendent of Industries. He prefers to purchase the ELBE lathe with a 7" centre and 7'-11" bed plate fitted with Norton Gear Box capable of giving accurate work. The price of the lathe is Rs.1800/- but the firm is willing to sell it to the Department at a heavy discount reducing the price to Rs.1319/-. As the price is very favourable I have purchased the lathe in anticipation of the sanction of Government. My action may be approved and the purchase sanctioned. The cost of installing the lathe will be kept within the total grant of Rs.1500/-. The cost may be debited to the source pointed out above.

I have the honour to be,
Sir,
Your most obedient servant,

C Ranganatha Rao Sahib

DIRECTOR.
